## CHAPTER 2

FINANCE

## 0201 GENERAL

## 020101. Purpose

The purpose of this chapter is to provide guidance on foreign military sales (FMS) Trust Fund budget authority (BA), to include FMS Trust Fund obligation authority (OA) for implemented cases, the FMS administrative surcharge budget, and contract administration services (CAS) surcharge budget.

## 020102. Authoritative Guidance

The Arms Export Control Act ([AECA](#)), Public Law 90-629, as amended, codified as Title 22, United States Code (U.S.C.) [Chapter 39](#) provides the authority and general rules for FMS and commercial sales of defense articles, services, and training. Additional specific authorities are in the applicable sections.

## 0202 RESPONSIBILITIES

## 020201. Defense Security Cooperation Agency (DSCA)

A. DSCA must prepare annual budget requests for the FMS Trust Fund obligation and outlay authority to support the FMS Trust Fund program. DSCA reviews, approves, and distributes budgets for the FMS administrative surcharge, Security Cooperation Organizations, and the FMS CAS surcharge accounts.

B. DSCA is responsible for establishing the annual Safety Level amount to be maintained in the FMS Trust Fund Administrative Surcharge Account. The Safety Level amount will represent 18 months of operational funding based on current budget levels. DSCA will establish the Safety Level before the close of the fiscal year (FY) and forward the information to the Defense Finance and Accounting Service, Security Cooperation Accounting (DFAS SCA).

1. Calculate the 18 month Safety Level by dividing the amount under the Annual State and Foreign Operations Appropriation Act by 12 to compute a monthly operating amount, and then multiplying that amount by 18. For detailed information on the calculation, refer to the DSCA Manual 5105.38-M, [Security Assistance Management Manual \(SAMM\) Chapter 9, section C9.15](#).

2. Any changes requiring adjustment of the Safety Level computation methodology will be forwarded to the Office of the Under Secretary for Defense (Comptroller) (OUSD(C)) for review and approval.

020202. Implementing Agency (IA) and Performing Agency

A. Each implementing and performing agency that prepares data for Letters of Offer and Acceptance (LOAs) must ensure that:

1. Department of Defense (DD) Form 2060, FMS Obligational Authority (or the automated equivalent), is submitted to DFAS SCA to initiate performance of the case and support Component budget estimates, and

2. Sufficient anticipated appropriation or fund reimbursable authority is included in the Department of Defense (DoD) budget.

B. IAs are responsible for fulfilling FMS Trust Fund orders using these financing techniques:

1. Issuance and acceptance of reimbursable orders into a financing appropriation or Defense Working Capital Fund (DWCF) account,

2. Issuance of allotments of the FMS Trust Fund to performing DoD Components, or

3. Authorization to use the FMS Trust Fund (11 X 8242) directly.

C. IAs must submit FMS and CAS budget requests annually.

020203. DFAS SCA

DFAS SCA must:

A. Establish BA not to exceed the cumulative value of the accepted LOA documents (Basic, Amendments, and Modifications),

B. Record BA resulting from accepted LOA documents (Basic, Amendments, and Modifications) in the FMS Trust Fund accounting system by case identifier,

C. Approve DoD Component requests for FMS Trust Fund OA in a timely manner, and

D. Obtain cash advances from FMS Trust Fund purchasers necessary to liquidate obligations resulting from the use of BA created by the FMS Trust Fund program.

## 0203 BUDGET AUTHORITY (BA)

## 020301. General

The processing of DD 2060 or the automated equivalent (OA Request) and DD Form 2061, FMS Planning Directive or the automated equivalent (Planning Directive) for accepted LOAs, Amendments, and processed Modifications establishes FMS BA.

## A. BA requests must be limited to:

1. The total case value for approved LOAs, Amendments, and processed Modifications; or
2. The amount expected to be obligated in the current FY.

B. At the end of each FY, DFAS SCA reduces unused BA or OA. Following the year-end accounting closing entries, reversal entries restore BA values for the new FY.

C. BA for FMS case lines, with the exception of Contingency, Small Case Management Lines, and CAS distributed to the Defense Contract Audit Agency or Defense Contract Management Agency (DCMA) is distributed to IAs. BA for the below-the-line surcharges (FMS administrative surcharge, and packing, crating, handling, and transportation (PCH&T)) are not distributed to IAs.

D. Figure 2-1 depicts the BA process, showing the relationships among the forms and formats, as well as relationships among organizations and the FMS Trust Fund purchaser at various stages of processing.

## 020302. Source Documents

A. LOA. The LOA is the basic source document for an FMS case. The LOA does not in itself create BA in either the FMS Trust Fund or in a DoD appropriation or fund account; however, it is required for establishing BA. See Figure 2-2 for a sample LOA; instructions for preparing LOAs are contained in SAMM Chapter 5, [section C5.4](#).

B. Amendment to an LOA. An Amendment is designed to obtain FMS Trust Fund purchaser acceptance of a change in LOA scope when the original purpose of a case line or note changes. Amendments are used to alter the original LOA and provide the basis to change FMS Trust Fund BA, when applicable. See Figure 2-3 for a sample Amendment; instructions for preparing an Amendment are in SAMM Chapter 6, [section C6.7](#).

C. Modification to an LOA. A Modification is a notification document to alert FMS Trust Fund purchasers of within-scope cost increases, cost decreases, or other minor changes to the program. Modifications are used to alter the original LOA and provide the basis to change FMS Trust Fund BA, when applicable. See Figure 2-4 for a sample Modification; instructions for preparing a Modification are in SAMM Chapter 6, section C6.7.

D. Planning Directive. The installation preparing the LOA data for the IA prepares and maintains a Planning Directive. The form is a working paper that serves three major purposes:

1. It provides identification of the cost elements included in prices reflected on the LOA and helps assure the case is priced in accordance with DoD pricing policies in Chapter 7;
2. It provides a time-phased plan for execution of the case upon FMS purchaser acceptance and implementation; and
3. It identifies the appropriations or funds that will be used to finance new procurement or realize earned reimbursements through delivery of items from inventory or from DoD in-house services.

See Figure 2-5 for a sample DD 2061; instructions for completing the form are contained in Table 2-1.

E. OA Request. An OA Request is prepared based on the Planning Directive.

1. Part A is prepared at the FMS case line level and is the basis for line level control of OA. Part B identifies the appropriations or funds that have been or will be used to finance the lines reflected in Part A. For reimbursable orders, Part B is submitted to DFAS SCA by the 20th calendar day following the close of each accounting month.
2. The OA Request may be prepared for an individual case or for multiple cases.
3. The OA Request is also used to convey the FMS CAS surcharge OA (see section 0205).
4. See Figure 2-6 for a sample DD 2060; instructions for completing the form are in Table 2-2.

#### 020303. Recognition of BA by the FMS Trust Fund

A. Establishment of FMS Trust Fund BA. To establish BA, FMS Trust Fund purchasers must return all accepted LOAs, and Amendments, and processed Modifications to the IA and DFAS SCA; IAs must submit an OA Request to DFAS SCA. When DFAS SCA receives the OA Request, the FMS case level accounting records are reviewed to determine if:

1. The case is valid;
2. The FMS Trust Fund purchaser has deposited necessary cash in advance to implement the FMS case; and

3. The requested OA does not exceed the dollar values established in the LOA and any applicable Amendments or Modifications.

If these three requirements are met, DFAS SCA must create FMS Trust Fund BA and approve the OA Request.

B. Trust Fund Direct Citation. The OA Request must be used to request commitment/OA for direct citation of the FMS Trust Fund. The OA Request is used as a control device, and commitments/obligations must be limited to the dollar value of the approved OA Request.

020304. Recognition of FMS Reimbursable BA in DoD Appropriation or Fund Accounts

A. Trust Fund Orders for Reimbursable Orders

1. The LOA, Amendment, or Modification does not represent a reimbursable order to the performing DoD Components. The approved OA Request is the reimbursable order. The OA Request includes the reimbursable portion of the order that may be credited to appropriations by a DoD Component for each line within a case for a FY. The OA amount for each line within a case cannot be exceeded. Reporting violations of this administrative limitation will follow the procedures in Volume 15, Chapter 3 and Volume 14. The reimbursable portion of the OA Request must arrive at DFAS SCA by the 20th calendar day following the close of each accounting month. See paragraph 020402 for preparation instructions for OA Requests.

2. The applicable DoD appropriation or fund accounting system must maintain an audit trail between the applicable OA Request and the appropriation or fund accounting records. Performance within the financing appropriation or fund account will be controlled in accordance with the accounting system established for that particular appropriation or fund account. Appropriation or DWCF bills for earned reimbursements must be processed in accordance with Volumes 11A and 11B. Thus, the FMS accounting system tracks orders into and out of the normal appropriation or fund accounting systems.

3. The FMS accounting system is not intended to track the financial status, or obligation, while reimbursable performance is in process. The status of specific purchaser requisitions can be obtained through logistical system inquiries. Applicable logistics status reports are provided to case managers and to FMS purchasers and are not to be confused with financial status reports.

4. Those DoD Components that are not IAs, but support the FMS program in response to IA work requests, must carefully review applicable work requests to determine the financing source. If the financing source is an IA appropriation account, the request must be recorded and processed as an internal DoD order. If the recipient is a sub-allotment holder, the required allotment status report must be provided to the allotment holder

and consolidated into the [DoD Status-of-Allotment](#) report to DFAS SCA, as discussed in Chapter 3.

B. Apportionment for Reimbursable Orders

1. When authority to accept reimbursable orders is subject to apportionment, obligations on a reimbursable program may not exceed the apportioned amounts of anticipated reimbursement. Reimbursable BA may be recognized up to the apportioned amount to the extent the FMS Trust Fund purchaser has advanced necessary cash under [subparagraph 020303.A](#), or has orders charged to appropriated funds. Reimbursable orders in excess of apportionment are not available for obligation; an additional apportionment of anticipated reimbursable orders needs to be requested and received through the reapportionment process.

2. Apportionments and reapportionments for reimbursable programs must be requested by appropriation account and FY. An appropriation that is available for obligation for more than one year requires an apportionment for anticipated reimbursable orders in the first year of availability. That apportionment must be reduced to the value of orders actually received in the first year. In the subsequent years of availability, a reapportionment for anticipated reimbursable orders is required to accept the purchaser's orders that fund within-scope price increases. The reapportionment request for anticipated reimbursable orders in the final year of availability is especially critical because any unused amounts in the reapportionment are automatically available for acceptance of additional reimbursable orders necessary to fund within-scope price increases after the appropriation has lapsed.

3. Receipt of an apportionment or reapportionment for anticipated reimbursable orders does not constitute authority to incur obligations. The actual purchaser's orders must be received and recorded in appropriation accounting records before applicable BA may be used.

020305. Contract Authority

A. Contract authority is the statutory authority to incur obligations with liquidation of obligations dependent on a future act, such as receipt of an appropriation. FMS orders, along with the OA Request, create contract authority. New contract authority reported in the "Report on Budget Execution and Budgetary Resources," Standard Form (SF) 133, is the value of FMS orders accepted for performance during the current FY for which BA has been approved in accordance with the requirements of [paragraph 020303](#).

B. Funds appropriated by Congress for defense purposes cannot be used to liquidate obligations resulting from the use of FMS contract authority, unless specifically allowed in appropriation acts or supplemental funding bills. See AECA section 22(b), Public Law 90-629, as amended, codified as Title 22 U.S.C. Chapter 39. FMS purchaser cash deposits liquidate these obligations and unfunded contract authority. Below departmental-level, contract authority loses its unfunded identity and is treated in the same way as other budgetary resources available for obligation.

C. Procurements for FMS purchasers are accomplished citing the FMS Trust Fund in applicable documents. Amounts in the FMS Trust Fund are, in a technical sense, appropriated funds, even though they are not annually appropriated by Congress and are not subject to direct Congressional control. Accordingly, accounting for commitments, obligations, and accrued expenditures in the FMS Trust Fund is accomplished as a direct fund cite.

020306. [BA for FMS Administrative Expenses](#)

The cumulative BA available in the current FY is composed of actual collections for FMS administrative expenses (including the FMS administrative charges and logistics support charges (LSCs)), less any prior allotments of such amounts and the amount to be reserved for future administrative expenses (i.e., the Safety Level). In no event should the annual allotment be higher than the limitation imposed in the annual Department of State, Foreign Operations, and Related Programs Appropriations Acts, unless otherwise approved through the process required by law.

\*020307. [BA for Cooperative Logistics Supply Support Arrangements \(CLSSAs\)](#)

Proper recognition and phasing of BA resulting from LOAs written to implement CLSSAs (see [DoD Instruction 2000.20](#)) create unique challenges. Under these arrangements, the purchaser funds the acquisition and maintenance of stock to normal DoD inventories and due-ins. Once these increments are established, the purchaser is provided supply support with the same responsiveness as is provided to DoD military units within the same Force Activity Designator. The applicable LOAs have three distinct financial subdivisions:

A. [Foreign Military Sales Order \(FMSO\) I](#)

1. [FMSO I, Part A](#). FMSO I, Part A, represents the on-hand inventory level required in Continental United States (CONUS) to support FMS requisitions to replenish in-country stocks. Normally, the on-hand level represents 5 months of demand. The cash necessary to establish on-hand inventory accompanies the accepted LOA.

2. [FMSO I, Part B](#). FMSO I, Part B, results in recognition of the contract authority necessary to award contracts for pipeline resupply to support FMS purchaser demands.

a. The purchaser's requisition is filled from on-hand inventory acquired under FMSO I, Part A. The inventory is then replaced by a delivery of a due-in from a contractor. Purchaser payments under FMSO II ([the foreign purchaser's anticipated yearly consumption under CLSSA](#)) provide the cash necessary to pay the contractor and establish new contract authority to award a contract for additional items, thus maintaining quantities in the pipeline.

b. Because cash received from FMSO II is used to pay for due-ins, the purchaser is not required to deposit cash in support of FMSO I, Part B. However, billings against the FMSO I, Part B are required if FMSO II demands are below expected levels.

FMSO I, Part B, normally represents 12 months of demand or the procurement lead-time, whichever is greater.

3. BA. The FMSO I case exists for the duration of the CLSSA and is modified only if the quantity of the end items to be supported changes or FMSO consumption patterns differ from expectations. The reimbursable BA resulting from acceptance of the FMSO I is credited to financing appropriations current at the time the contracts are awarded to increase on-hand and on-order quantities.

#### B. FMSO II

FMSO II is the consumption case. FMSO II does not create BA for re-procurement until applicable requisitions are received (earned reimbursements) and purchaser cash is deposited in the financing appropriation account (collected). Upon shipment and collection, additional BA is recognized to maintain the pipeline created by FMSO I, Part B. FMSO II BA is credited to appropriations current at the time material is released from inventory in response to FMSO II requisitions.

### 0204 PLANNING DIRECTIVES AND OA REQUESTS

#### 020401. General

Planning Directives and OA Requests are required for all new cases that have been submitted to FMS Trust Fund purchasers for acceptance and for all cases in the process of implementation. The Planning Directive and OA Request must initially be developed when the LOA data is prepared. The OA Request must be included with the LOA package. The IA must retain the Planning Directive as backup for the LOA package.

A. The Planning Directive reflects detailed pricing elements, planned financing appropriations (or direct citation), the amount of OA required for the current year, and an estimate of OA for the budget year. The initial Planning Directive may contain abbreviated financial analysis data. However, as execution begins, the Planning Directive must be expanded to encompass all required cost elements and data.

B. Activities furnishing articles or services to fulfill case requirements must provide the case manager the necessary data to accomplish his or her responsibilities. The case manager must ensure that all applicable nonrecurring research, development and production costs (see Chapter 7) are included in the LOA package and identified for reimbursement to the appropriate Miscellaneous Receipts Account in the OA Request.

C. Planning Directives and OA Requests must be prepared for each case and must also be prepared:

1. In support of requests for Amendments and Modifications reflecting financial impact;

2. In support of price changes of less than 10 percent of the estimated cost of articles and services (utilizing the most recently approved document);
3. In support of variations of more than \$100,000 between reimbursable accounts or between direct cite and reimbursable accounts discovered subsequent to case implementation;
4. In support of changes in current year OA requirements within the net case value as reflected on the most recently approved Planning Directive and OA Request; and
5. As necessary, to ensure adequate OA is available in the budget year before commencement of that year.

#### 020402. Preparation of Planning Directives and OA Requests

Procedures for completing a Planning Directive using DD 2061 are in Table 2-1. Procedures for completing an OA Request using DD 2060 are in Table 2-2. All Planning Directives and OA Requests are cumulative. Therefore, case managers must maintain an audit trail that will relate each to its predecessor.

A. To ensure control over the flow of documentation, the case manager must assign and maintain a system of control numbers. The control numbers are composed of the FMS Trust Fund purchaser country code, case designator, Julian date, and serial number (e.g., BN-BLX-08181 08).

B. All amounts on Planning Directives and OA Requests must be in United States (U.S.) currency.

C. Before the end of each FY, unless real time OA Request procedures are in effect (on line pulling of OA versus hardcopy or batch processing), the IA must submit a consolidated OA Request to DFAS SCA requesting budget year OA. This case data will be based on information taken from the "Budget Year ( ) Funding Plan," of the Planning Directive, and is necessary to ensure that case execution is not delayed due to funding problems.

D. Case managers must scrutinize financial performance on a continuing basis to ensure the availability of sufficient OA for both the current FY and case completion.

E. Each case manager preparing the year-end OA Request must identify the OA requirements through the end of the upcoming FY. If the sum of the budget year, current year, and prior year requirements exceed the case value, then the case manager must initiate action for the processing of a case Amendment or Modification, as appropriate.

F. The various pricing elements and related appropriations and funds required to prepare Planning Directives and OA Requests are in Table 2-3.

0205 OA REQUESTS FOR BUDGETED FMS CAS COSTS AND FUNDS REIMBURSED BY THE FMS CAS SURCHARGE ACCOUNT

020501. FMS CAS Services Budget

DoD Components will develop and submit an annual FMS CAS Budget request to the DSCA Comptroller by August 10 of each year. These estimates must support only FMS CAS related efforts as outlined in the Federal Acquisition Regulation ([FAR](#)) and Defense FAR Supplement ([DFARS](#)). As such, these estimates cannot include FMS CAS related efforts that are not charged in whole or in part under AECA section 21(h). See Chapter 7 and SAMM Chapter 9, section C9.6. The estimates include individual reciprocal countries agreements processed by OUSD Acquisition, Technology and Logistics (OUSD/AT&L) (see Chapter 7); CAS waivers for North Atlantic Treaty Organization (NATO) and NATO Cooperative Projects (see Chapter 7); CAS waivers applicable to other special projects; and FMS CAS work excluded by specific Public Laws (see AECA and Chapters 7 and 8).

A. The FMS CAS Budget request must specify the amount of anticipated FMS CAS work that will be performed and needs to be reimbursed for that particular FY. An OA Request must accompany the budget request with anticipated FMS CAS costs, to include the projected unfunded civilian retirement (UCR) costs and associated salary and retirement costs for military personnel performing full-time FMS CAS. The DoD reimbursable rates are computed annually (see Volume 11A, Chapter 6) and approved and released by OUSD(C) (see [DoD Reimbursable Rates](#)).

B. The OA Request must reflect the total amount of reimbursements that are expected to be performed for that FY and list all appropriations and reflect the estimated amount for each appropriation. The sum of the amounts reflected for each appropriation must equal the requested total and the FMS CAS Budget. The UCR costs are computed on the basic pay only, excluding overtime (see [5 U.S.C. 8331](#) and Office of Management and Budget (OMB) Circular A-11, [section 20.5](#)).

C. The DCMA CONUS FMS CAS Budget estimates must be based on a DCMA established annual command rate as explained in Chapter 8, subparagraph 080602.C.3. In addition to the budget estimates, DCMA must provide a copy of the Command Rate Report and the Quarterly Functional Workforce Analysis worksheet.

D. The DCMA Overseas FMS CAS Budget estimates must be based on actual costs for full-time employees (90-percent or more) and the DoD hourly rate for part-time employees.

1. All other costs (e.g., equipment, vehicles, or computers) associated with full-time employees are included in the estimates. Budget presentation of full-time employees must not be based upon a composite of part-time effort. Follow the Funded Environment and Morale Leave (FEML) funding guidance issued by OUSD. Full-time employees, who are provided Environmental and Morale Leave (EML) travel as assistance-in-kind (AIK) by the host government, may not also travel on FMS CAS funded FEML in the same

year. Under no circumstances may the combination of FMS CAS funded FEML and AIK EML exceed one trip per year. The travel on AIK tickets must not be augmented with further tickets or travel that is FMS CAS funded.

2. The estimates for the part-time employees (10 percent to 90 percent) will include only actual work performed (costs relating to salaries), UCR rate computed on salaries, and overseas temporary duty cost. FMS CAS funds will not be used to fund EML travel for part-time FMS CAS employees. FMS CAS funds will not be used to fund salaries or support for employees who spend less than 10 percent of their time on FMS CAS tasks.

3. Military positions must be reimbursed based on the guidelines in this section.

4. For more information on CAS costs, reference Chapter 8, paragraph 080602.

#### 020502. FMS CAS OA Requests

Upon approval of the budget estimate by DSCA, the OA Request must be forwarded to DFAS SCA for approval, processing, reporting (see Chapter 3, [subparagraph 030408.E](#)), and general ledger control (see Chapter 3, [subparagraph 030408.C](#)). Before FMS CAS surcharge costs may be incurred, the DoD Component must establish a reimbursable order in the financing appropriation that will initially pay the actual cost of such services. The OA Request must list the appropriations and anticipated reimbursements to each [appropriation](#).

A. The initial approved OA Request must represent the reimbursable order to perform FMS CAS work on FMS cases. If it is suspected that the OA Request is no longer valid, and the OA amount needs either to be increased or decreased, then an updated OA Request must be forwarded with a cover letter to the DSCA Comptroller explaining the need for the OA change. The revised OA Request must be forwarded to DFAS SCA for processing.

B. During the FY, monthly [SF 1080s](#), “Vouchers for Transfers Between Appropriations and/or Funds,” must be prepared and forwarded to DFAS SCA for payment as specified in Chapter 8.

C. At year-end, the annual OA Request must be updated to reflect the September 30 end-of-year obligated position. New obligations are not authorized after September 30 of the closing FY. When all costs have been finalized and reimbursements have been processed by DFAS SCA (i.e., when actual costs, disbursements and obligations all are equal), a “Final FMS OA” document must be prepared and forwarded to the DSCA Comptroller for approval and processing.

1. The “Final FMS OA” documents must show the actual cost incurred by each individual appropriation, including the UCR costs that are deposited in Miscellaneous Receipts Account 3041 (see 5 U.S.C. 8331 (3) and OMB Circular A-11,

section 20.5) and the military pay accounts for military personnel costs associated with salary and retirement for full-time FMS CAS employees. The U.S. Treasury accounting symbols are listed in the Federal Account Symbols and Titles ([FAST Book](#)).

2. DFAS SCA must use this “Final FMS OA” as the basis for withdrawing OA for all unobligated balances that were recorded under each appropriation for that FY. Prior to the close out of a particular FY and during the subsequent FYs, joint financial reviews will be conducted between the billing agency, DFAS SCA, and DSCA. All adjustments or revisions will be submitted within 30 days following the completion of the review.

3. CONUS FMS OA documents should be forwarded to DSCA on or before December 14 of that year. Overseas “Final FMS OA” documents must be forwarded to DSCA when all costs have been reimbursed and all associated disbursements have been processed by DFAS SCA.

D. Revenues to fund FMS CAS expenses are prescribed in Chapter 3, subparagraph 030405.A. The methods for reimbursing the DoD Components for performing FMS CAS are prescribed in Chapter 8, subparagraphs 080602.A-B.

E. DoD Components that purchase equipment, vehicles, computers, and other items using the FMS CAS Surcharge Account must establish disposal guidance to ensure compliance with Volume 11A, Chapter 5, Table 5-2, item 8d to ensure that all funds resulting from the sale or disposal of this equipment are returned to the FMS Trust Fund.
