SUBJECT: Medical Billing Rates for Care Provided to Foreign Nationals Under Acquisition
and Cross-Servicing Agreements in Department of Defense Deployed/Non-Fixed
Medical Facilities

This memorandum updates reimbursement rates for medical services funded by the
Military Departments provided at the Department of Defense (DoD) deployed/non-fixed medical
facilities for foreign nationals covered under Acquisition and Cross-Servicing Agreements
(ACSAs). This memorandum does not apply to Military Treatment Facilities (MTFs) funded by
the Defense Health Program or to MTF cost recovery programs under DoD 6010.15-M, DoD

Authority to establish fees for services provided by facilities of the Uniformed Services
(e.g., fees charged under ACSAs between DoD and foreign governments) are established by
Title 10, United States Code, Sections 2341–2350. The following reimbursement rates apply to
medical services provided under ACSAs by the deployed/non-fixed medical facilities:

- Inpatient daily rate: $969. Date of discharge is not billed unless the patient is
admitted and discharged on the same day.

- Outpatient visit rate: $69. A visit is an encounter with a privileged provider to
include diagnostic imaging, laboratory/pathology, and pharmacy provided the same
day at the medical facility. It does not include costs of service/supplies ordered by
the provider, but those furnished by an entity other than the deployed medical facility
(e.g., a pharmacy order purchased by the patient in the open economy).

The following conditions must be satisfied to support the reimbursement process:

- Current and signed ACSAs between the DoD and the foreign government.

- Established Military Department directed billing and collections policies and
procedures for deployed/non-fixed medical facilities must be followed.
These rates are to be used for medical services rendered from the date of this Policy Memorandum and are effective until updated. This policy does not establish eligibility for care.
